Subject: Re: 911 Commission: Wrap-up/Loose End items

Hi Jeff, Bob Whitworth asked me to look into the 911 Commission requests. I forwarded Item #1 of the requested Items to Veronica Pacilio, Manager Atlantic City Tower. Her response is listed below.

Please take a look at her response, and let me know if we need to do a conference call with her and discuss the particulars, or simply provide me a response via this cemail. Any questions, please call me. Thanks

Subject: Re: 911 Commission: Wrap-up/Loose End items

Freddy,

I am a little concerned about the differences between the request by Miles Kara and what was requested by Jeff Myers. An initial review of the strips show no SNAKE 01 or 02, but we do have strips on ELKIN 21 & SNAKE 14. Additionally, Mr. Kara requests any communication from ZBW around 0835, and communications concerning early morning fighter activity and activity related to the NEADS scramble order. Somehow, the information being requested by Mr. Kara seems to have been narrowed along the way. Since I am unsure of what to provide, can you please obtain a clarification for me of how broad or narrow our scope should be, and confirm if we are to only include transmissions with SNAKE 01 and 02 instead of all fighter activity that day.

Thanks,
Veronica

Subject: 911 Commission: Wrap-up/Loose End items

Hi Veronica, as per our conversation, can you please check your records of any 9/11 data and see if you have information being requested (As per Item #1 below).

I spoke to Bob, and he would like, that your DAT tape you are holding be completely reviewed, to determine if there are any mention of these A/Cs. Any questions, please call me. Thanks

Subject: The Home Stretch

We have been asked the following, can you provide assistance?

1. Please list and provide tapes that capture conversations with the Fighters (Snake 01 and 02), Wing, and or Base Ops concerning Atlantic City fighter activity the morning of 9/11 between 0630-1130 EDT.
2. The "Commission" wishes to talk with David Maddox at Potomac TRACON. Please determine his schedule over the next two weeks.
3. The "Commission" wishes to talk with Cary Johnson and Tim Call. What is a good day in next two weeks to do that?
4. The "Commission" wishes to talk with Lynn Becker (ZDC, retired). Do you have good contact data?

I'll send you a separate message from Miles on Atlantic City--- I asked him for additional details.
Lynn Becker is retired from ZDC.

Subject: The Home Stretch

Shirley, thank you for all your support in getting us ready for and through the hearings last week. The last minute details, especially pinning down the RCC call, were important.

Some things we need to do; Lisa and I will work with you on setting them up.

1. We need to know more about Atlantic City. Please request tapes of responsive positions that cover the following: Early morning fighter activity, call from ZBW in 0835 +/- time frame EDT, and NEADS scramble order at 1030 EDT and resultant fighter activity on 9/11.
2. We need to talk to David Maddox at Potomac TRACON. Please determine his schedule over the next two weeks.
3. We need to close the loop with ZDC and talk to Cary Johnson and Tim Call. What is a good day in next two weeks to do that?
4. We need to talk to Lynn Becker. Lisa has sent him a letter, but we're not sure we have reached him. Do you have good contact data?

There may be another item or two as our team compares notes this week.

Miles
