Mike/Luis,

For your information and action.

Also, even though ZDC was not the last IFR facility to talk to AAL 77, It has been determined that ZDC due the AAL 77 package to assist everyone.

Ron

Dick Petersen, Ron Ruggeri, Tom Benson;

Our office fully appreciates the efforts of everyone during these unusual circumstances. We have discussed how to best collect all of the necessary data, documents, recordings and rerecordings, information, and miscellaneous notes, etc., for the four accident files and yet not overload anyone particular facility. Based on many factors we are requesting the following regions to direct their respective facilities to be the Air Traffic facility responsible for the final data collection (i.e., put together the formal file):

American Airlines Flight 11 - Boston ARTCC
United Airlines Flight 175 - New York ARTCC
American Airlines Flight 77 - Washington ARTCC
United Airlines Flight 93 - Cleveland ARTCC

Jeffery A. Myers
