I think we have now reached a point in history when more people don't believe the official story. Most of us know that a major hoax has been played out. It's now time for the conspirators to start coming forward and to tell us what exactly happened and why. Don't just keep insisting on the official story. The world deserves the truth,

Wait a minute.. from all the interviews and docs on Donna's daughter it says she had only just figured out she was pregnant the day or day before 9/11. It only takes 7-15 days to notice symptoms of pregnancy. Donna (mother) just said the babies bones were found in the autopsy. It may only take 7-15 days to notice symptoms of pregnancy but it takes

And because it's a little too complicated, most people accept what they were told by mainstream media owned by corporations. It is almost impossible to make sense of, BUT, not much, if any of 9/11 is what we think it was. It's easier to accept what we are being spoon fed. You don't have a compulsion to do more research.

Here's another problem. I watched the movie Let's Roll. About Mrs. Beamer supposedly dead husband and the others. One of the Victims calls her husband and tells him to go to her safe which is in her Closet. The Combination isget this now...6336 ! 666 ! I worked for United Airlines and I don't recall their uniforms ever being Black and White ! Black and White makes up the color Grey, which IS DECEPTION ! How many of our young men and women died in Afghanistan ? How many never came back ? For what ? So the Beamers can have it all ??? Maybe the rest of them too.

As a soon to be US medical doctor I must put in my support towards a part of this videos quackery.

The woman who is mother to Lang states an autopsy being done on her 5 month pregnant daughter's fetal bones. Besides the obvious fact that is laughable to think her daughters body was found in tact yet steel melted that day ; fetuses do not have bones. Nor do children under 5-7. We all have very soft cartilage until we hit about 8-9yo. In other words post mortem there would be a very rapid degradation of that cartilage and by autopsy time there would be no trace of endoskeleton of the fetus.

Have you ever been up close to a grieving parent? 99% of them wouldn't even think about crusading in this format of "grieving parent", it would be unthinkable to display such open emotions at the cue of a microphone being shoved in their face. For those 99% genuine loss and grief are a one-time only public display phenomena. After that, parents don't want to discuss the loss and personal suffering their going through, that's why it's called 'personal'! We are by nature caring emotional beings succumbing to deviously planned manipulations for purposes often unknown to us. We all have emotional needs and are just waiting for the opportunity to "plug in" to available circumstances! Always question your motives before engaging in any emotional commitment!

My approach to studying 9/11 has been to examine in empirical fashion the available imagery of that day. Thus, it is not a "theory" - but quite simply an analysis of the visual & audio records released by the media. It is therefore a fact-based study - insofar that TV newscasts are meant to be facts submitted to the people.

Nico Haupt and the Webairy are both, I'm afraid, real people. They were most likely selected - ever since day one - for their kooky ways and looks, in order to 'lead' but ultimately discredit the TV-fakery/No-Plane paradigm which the perps KNEW was bound to be (seriously) exposed one day. It looks like they were 'retired', as the taboo No Victims paradigm was expounded at Cluesforum. Presumably, to gatekeep for the Vicsim findings was just not part of their contract.

It actually makes perfect sense that these actors are cast in the role of "Bush-bashers". After all, they need to gain 'street-cred' WITHIN THE 9/11 TRUTHER CIRCLES. Their angry stance as 'embittered family members of 9/11 victims' also gives the mainstream news media (who often promote their 'weep shows') a perfect opportunity to uphold the (phony) notion of the "3000 victims of 9/11".

We now know the WTC only had a handful of (complicit) "Wall Street" tenants such as Cantor Fitzgerald, Morgan Stanley, Marsh Mc Lellan, Eurobrokers. etc - whose supposed employees were made up out of thin air with a phony digital database. FACT : the 1993 bombing provided a pretext to relocate outside the WTC all the former 350 WTC tenants (50.000 workers): [tinyurl . com / WTC-TENANTS-RELOCATED](http://tinyurl.com/WTC-TENANTS-RELOCATED) (remove spaces)

Think of ALL the "9/11 video material" you have ever seen as a mega-budget Hollywood production - split in countless small clips - so as to create the illusion that they are the work of many different, independent/private cameramen. The WTC complex was ringed off/evacuated very early on that morning - and there were most likely (as an extra 'safety measure') HERF jamming devices in place to impede private video capture.

It is frankly quite astounding to me that - with all the CGI & special fx we've seen in hundreds of Hollywood movies - there should be any difficulty for people to wrap their heads around this. I guess that the many (lousy) actors playing "eyewitnesses to the event" on TV did a pretty decent job after all - to implant the notion of 'planes and 'jumpers' in people's minds.

I will gladly answer to your 2 questions:

- 1: There were no '3000' people in the towers. The ones you can find in the many 9/11 memorials are just digitally-generated, fictitious identities. A few of them may perhaps have existed and have been given new identities. The few "family members" (about 50 or so) we ALWAYS see in the news are all actors.
2. The government doesn't need to keep quiet either unexisting people - or anyone who profits from participating in the scam.

@wanshei Sorry, but it has now been proven in every imaginable way that no passenger planes hit the towers - and please don't try reviving the 'remote-controlled' jumbo theories. Hence, there were no passengers - only fictitious names generated on a digital database. By following this logic, our research has likewise comprehensively discredited the phony 9/11 memorials listing the purported '3000-or-so victims'. There is very little left for us to uncover.

Let me put it this way: the hypothesis that no one died cannot be discounted and is a valid postulation so long as we have no serious, court-admissible proof of their pre-2001 existence. To this day, none has been forthcoming. A mere handful of purported family members have been in touch with our research forum: they have all proven uncollaborative - or to be outright frauds. Odd that you would pick on Bob who is VERY outspoken against the government's official story (the 911 report). If he's an actor, he's not playing his role very well. That's fair enough - perhaps I should have left him out for now on the benefit of doubt. However, was he 'got at'? Annie Machon thinks nothing of the sort : "He started to get more and more erratic, talking about speculative fringe theories such as "no planes" in public, and the whole campaign was ridiculed by the media in the UK. That said, in my view it was

Brugality: The "911 movement org" forum where I had a well-read September Clues Q&A thread (54.500 views) was abruptly shut down without notice. It happened as Hoi Polloi and myself started methodically exposing the fake victims of 9/11. Hmmmm... I guess that was purely 'coincidental' ?... :-p

sorrowfulsun, are you a "coincidence theorist"? :O) See, it is highly debatable whether Shayler is a victim or yet another actor. Ian Fleming once wrote : Once is happenstance. Twice is coincidence. Three times is enemy action. Now, there are well over three 'prominent' individuals who act like complete lunatics within the "no planes / tv fakery"

They just look absurd (top down collapses - and HUGE upward-ejected dust clouds never seen in any CD). The few 'squibs' are inserted to make us "CT's" debate this in circles forever - which is just

@sorrowfulsun I agree completely, especially when you say she has been ridiculed by many in the so called truth movement. Maybe we should call it the half-truth movement. I mean something definitely brought the buildings down. If there were no planes, and no significant bombs then there had to be scalar weaponry at work, no matter how far fetched

Come on Simon don't you know they found one of the hijackers passport in front of the tower after the plane crashed.

Great job with the 911 flip animation, it was the first time I realized it. (911-lie)

About the rest of the vid, I don't think you should make fun out of bad actors you bad boy

But no deaths is asking me to take a leap of faith. I agree there were no plane deaths, as

I will need more evidence to be convinced.

I base my theories on evidence so therefore I can't speculate on things.

I feel I have enough evidence to say that 911 didn't happen as we were told, however I would have to take a blind leap of faith to go along with this claim, which I cannot.

It provides food for thought and a distinct/consistent set of behavioral patterns which may well be court-admissible as "circumstantial evidence". I think that either there was no planes or videos are fake of its not the normal planes. I do agree with you about the speed and how it totally penetrated the tower without any parts broken. All Im saying is that people behind this events are very powerful and smart. Along with real truth seekers there are fake ones. Their job is to tell all the different stories

I think People who did 911 do the following: They are in all movments with people who promote no plane theory, with people who promote that plane hit the towers but it was an inside job. They will be telling us many stories conflicting with one another and in fact making it very difficult to figure out the truth.

P.S. I'm a Brooklyn boy and my good childhood friend lost his 22yo brother in the south tower. His bank wanted to herd them into a fire proof safe midway up the tower and while he was deciding to go in or leave the building, the plane came in on his floor. So he and a good many of his coworkers bought the farm. This is a fact. His mother is still broken
